EntreComp4Transition Learning Paths: Enrol now!

As the world faces unprecedented challenges from climate change, digital transformation, and evolving market demands, it's clear that businesses and individuals alike need to embrace new skills and mindsets to thrive. That's where the EntreComp4Transition Learning Paths come in. Our comprehensive, free learning paths are designed to help you lead the green and digital transitions, equipping you with the tools needed to drive meaningful change in your industry or organisation.

Whether you're a student, entrepreneur, business owner, or employee, the EntreComp4Transition Learning Paths offer flexible, engaging opportunities to boost your skills and make an impact. You can also earn a digital badge for completing the Learning Paths. Take a look at the [course introduction video](#) to see what to expect.

Find out more about the Learning Paths on [our website](#). If you already have an EntreComp Community account you can [enrol on the course now](#), if not just [sign up for an account](#) first.

Green Transition Facilitator

Partner Meeting in Türkiye

In October, the EntreComp4Transition partners travelled to the beautiful coastal town of Alaçati in Türkiye. On the agenda for the meeting were reviewing key project milestones, including online learning initiatives, pilot experiences, interim results from the SME self-assessment tool, and updates on the mobility programme. Partners also enjoyed a visit to a local vineyard where female-led entrepreneurship and sustainability work hand in hand to produce quality wine.

Thank you to our Turkish partners TOBB and TOBB University of Economics and Technology for organising the meeting, and a special thank you to the staff at İzmir Ticaret Borsası Eğitim, Kültür ve Sosyal Entegrasyon Vakfı (BORSAV) for hosting us and making us feel so welcome in your beautiful town.

International Student Mobility

Registration is now open for the EntreComp4Transition Student Mobility! If you are a Vocational Education and Training or Higher Education student over the age of 18 currently living in Austria, Belgium, Italy, Spain or Türkiye with an interest in the twin green and digital transition and entrepreneurship, this is your opportunity to gain professional international experience working with a team of fellow international students during a four-week exchange programme (one week online, three weeks exchange). One participant from each country will act as host in their own country, welcoming the international participants. This is a grant. Costs associated with travel, accommodation and subsistence will be covered by the project. For more details on the Mobility and how to apply, visit the [EntreComp4Transition website](#).

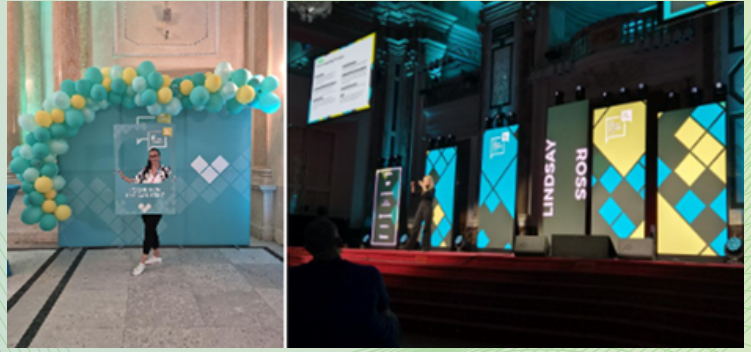

Update from Austria

By WIFI WKÖ

WIFI WKÖ at the Vienna HR Summit Vienna

WIFI WKÖ recently participated in the prestigious HR Summit in Vienna, which hosted over 2,000 professionals from the field. During the event, they explored the latest advancements in AI and digitalisation in HR, engaged with potential stakeholders, and connected with Austrian educational institutions. These efforts were key to effectively disseminating the project outcomes.

EntreComp4Transition featured at Euroguidance Conference 2024

The Euroguidance Conference 2024 in Vienna, organized by OeAD and Euroguidance Austria, focused on "The Potential of Artificial Intelligence in Career Guidance and Counselling." The event brought together career guidance professionals, educators, policymakers, and researchers, primarily

from Austria, with a strong presence from other European countries, to discuss how AI is revolutionising career counselling and workforce development. Project manager Nadine Schönstedt hosted a dedicated stand to present EU projects, with the EntreComp4Transition project being a particularly significant focus. This initiative allowed her to engage with attendees, answer questions, and actively support the dissemination of its goals and outcomes. You can read more about the event on [our website](#).

Update from Belgium

By Bantani Education

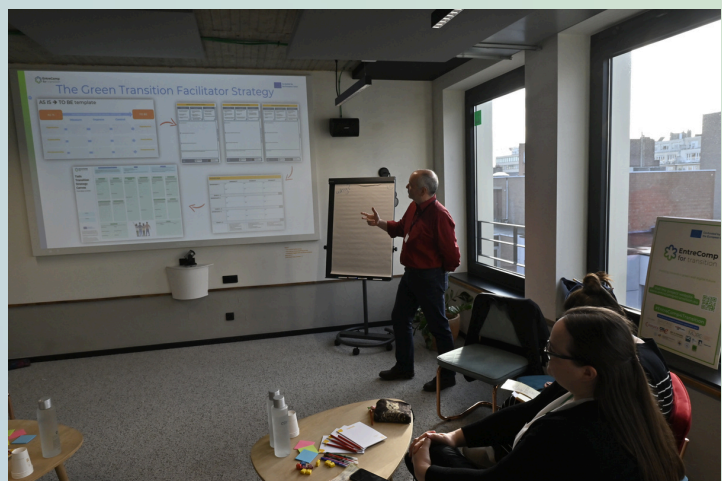

Being Entrepreneurial 2024: Celebrating Entrepreneurial Learning in Europe

On 28 November, Being Entrepreneurial 2024 brought together professionals, educators, and innovators to celebrate entrepreneurial learning across Europe in Brussels, Belgium. The day-long event featured insightful workshops, expert-led sessions, and invaluable networking opportunities, among those the workshop Shaping the Future with EntreComp4Transition.

Filip Burgelman from Thomas More University and Marianella Parra from Bantani Education co-hosted an interactive workshop focused on the Twin Transition Facilitator—a dynamic role designed to support SMEs in achieving digital, sustainable, and entrepreneurial transformation. The session was part of the EntreComp4Transition Erasmus+ project, aimed at empowering professionals to guide European SMEs toward a more sustainable and digital future. Key Takeaways included:

- Participants gained insights into the EntreComp4Transition strategy.
- The workshop fostered collaboration and knowledge-sharing among experts and like-minded professionals.
- Attendees celebrated the power of entrepreneurial learning and innovation.

The event successfully connected individuals passionate about driving entrepreneurial transformation. Thank you to all who participated. For more information, check out the [blog post on our website](#).

Update from Italy

By MateraHub

Being Entrepreneurial at the time of twin transitions

The entrepreneurship education webinar, organised by the Italian Cluster of EntreComp4Transition, was truly a journey into the future of learning. The event featured Elena Luppi, Daniela Bolzani and Aurora Ricci, authors of the book "Diventare intraprendenti e sviluppare il proprio potenziale" (Becoming entrepreneurial and developing your potential), who shared their insights on the importance of transversal skills and a growth mindset.

A lively discussion highlighted current and future challenges, inspiring practical solutions and a strong commitment to education that energetically and with vision responds to the ecological and digital challenges of our time!

Update from Spain

By Junta de Extremadura, DG Univeristy

EntreComp4Transition presented to new graduates from the University of Extremadura.

Staff from the Junta de Extremadura's Directorate General for University presented the Entrecomp4Transition project to about 60 new graduates, participants in the 'Internationalisation and Talent Return Programme', in which they are trained in entrepreneurial skills while doing internships in companies in the region. Participants had the opportunity to learn about the EntreComp4Transition project and the training that the project has developed for the creation of the Green and Digital Transition Facilitator. As young people with different profiles who are starting out in the world of work, they are an ideal target audience for the training pathways developed to improve their employability. The initiative was interesting to the audience since the MOOC offers updated training related to current challenges in the business environment.

Spanish Cluster Meet-ups

The first Spanish Cluster Meet-up in 2024, took place on 22 October. More than forty people signed up for the activity where Alejandro Almeida, from the University of Extremadura, showed participants the main keys to digitalising an SME, how SMEs can improve or boost their success using data as the main unit and easy, affordable digital tools. The second activity is programmed for December, when the Country Cluster will meet with the students taking part in the pilot experience who are interested in the EntreComp4Transition mobility that will be begin in March 2025. Students will be able to meet with the Spanish staff of the project who present the planning of the mobility activity, cities, timetables and main tasks they will commit to as beneficiaries of the founded activity of EU programme. Students' engagement will be boosted by meeting the characteristics of the mobility and knowing the people who support them in case they are selected to put into practice the knowledge and competences, they acquired when making the MOOC, in a real business from one of the countries involved in the project.

Update from Türkiye

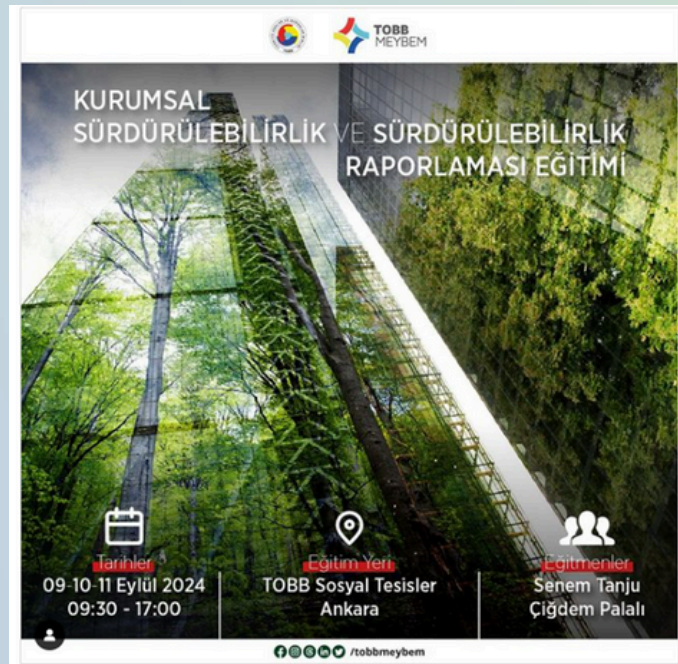

By TOBB

Corporate Sustainability and Sustainability Reporting Certification Programme

On 9 to 11 September 2024, TOBB organised a three day long sustainability certification programme for TOBB affiliated companies, a face-to-face training aimed at helping participants:

- Learn sustainability-related concepts,
- Increase competence and skills related to reporting and measurement of sustainability,
- Understand sustainability as a concept in a data-supported and application-based manner,
- Support career and competence development processes.

The training focused on: Sustainability Governance, Risk and Opportunities-Scenario Analysis, Sustainability Strategies, Sustainability Performance Measurement Tools, CMB Sustainability Principles, Global Reporting Initiative, Carbon Disclosure Project, International Integrated Reporting Council, Task Force on Climate-Related Financial Disclosures, Sustainability Accounting Standards Board, European Sustainability Reporting Standards (ESRS), Türkiye Sustainability Reporting Standards, Best Practices, Sustainable Financing Tools and Social Impact.
